

The GrandStand™

A mid-range roll-up system, The GrandStand™ can withstand the rigors of exhibitions without folding under the pressure. Graphics easily wind into the stand base, allowing for quick set up and break down.

With a stylish silver or black finish, The GrandStand™ projects a sleek appearance that does not distract from the display message. The GrandStand™ has a self-adhesive top rail and includes a gray nylon carrying bag with black trim. Available in 33.5" (850mm) and 39.375" (1000mm) widths by 84.5" (2146mm) tall.

Suggested print media: Polypropylene Matte Print Media, Printable Eclipse™, SilkScape™
