

Love the .008" accuracy of the Javelin Series 2 and the optional Big Bench and Lift & Hold system add-ons? With the new Javelin Integra, you'll get this functionality all in one unit. It is ideal for shops with low to medium output production and includes:

- **A fixed docking port** that prevents the unit from moving when applying pressure to thick materials. The Javelin Integra is simply fastened to an existing flat bench surface with screws. The unit can easily be lifted off the base and stored or used as a portable cutter bar.
- **A built-in lift mechanism** on each end of the unit, allowing for easy material loading.
- **A full-length aluminum cutting track** for the blade tip to run along, avoiding cut damage to the underlying table.
- **Accurate to within .008"** over the full length of the cut.

Features a unique Lift & Hold System that is perfectly balanced for ease of use.

### Interchangeable Blade Holders:

The Javelin Integra features a new, high-performance cutting head design that can accommodate an easy-to-change 45mm textile blade holder, Graphik blade holder and a medium-duty blade holder.

Item #	Description
69132	45mm OLFA cutting wheels (10)
69133	45mm Standard cutting wheels (10)
69108	Medium-duty blades (100)
69131	Graphik D .017 blades (100)
