REBEL RB500 series delivers an industry leading 99% opacity.

What is REBEL® RB528H?

REBEL RB528H is a matte white high-tack Multi-Print media ideal for those hard-to-adhere-to surfaces like polyethylene, polypropylene, MDO, Sintra®, Gatorfoam®, powder coated painted surfaces and many more!

Like all REBEL products, RB528H helps to minimize your inventory investment because it can be printed on multiple platforms including screen printing, wide format digital with solvent, eco-solvent, UV and latex ink and thermal transfer.

Ideal for POP, decals, trade shows, wall graphics, billboards and general purpose signage for both indoor and outdoor use.

What is REBEL® RB599H?

REBEL RB599H is a 4.0 mil clear, flexible PVC film that offers a clear, no-decal look for medium- to long-term outdoor advertising and promotion. It features a high-gloss, clear facestock for invisible edge graphics and an aggressive high-tack adhesive for excellent bonding to low-surface energy and other difficult-to-stick-to substrates such as polyethylene, vinyl and arena dashboards.

REBEL RB599H is ideal for flat or slightly curved surfaces, including indoor and outdoor signage, graphics, point-of-purchase (POP) displays and decals.

| Product | Description | Adhesive | Liner | Min. Application Temperature | Outdoor Durability |
|---------|-------------------------------------|----------------------------|---------------------------------|------------------------------|--------------------|
| RB528H | 4.0 mil Matte White Polymeric Vinyl | Aggressive Clear High-Tack | 90# SuperFlat™ Polycoated Kraft | 50°F (10°C) | Up to five years |
| RB599H | 4.0 mil Clear High-gloss Vinyl | Aggressive Clear High-Tack | 90# SuperFlat™ Polycoated Kraft | 50°F (10°C) | Up to five years |

REBEL Screen and Digital Media

REBEL is excellent for use on low VOC paints.

The REBEL portfolio is a multi-print media product line that offers a one-source solution for screen and digital printing. REBEL features exceptional adhesive performance in removable, permanent and high-tack options and a wide variety of finishes that include gloss white, matte white and gloss clear. REBEL delivers an industry-leading 99 percent opacity, provided by the vinyl face film, for a more consistent print surface.

With an outdoor durability of up to five years, REBEL is ideal for traditional signage, POP displays, vending machines, ice boxes, floor and wall graphics, and more.

For more information about REBEL or other Mactac products, partnerships or graphic solutions, call a graphics representative at 866-622-8223, e-mail Mactac.Americas@mactac.com or visit mactac.com/graphics.
