

The Keencut Proteus Workbench, combined with the Javelin Integra cutter, creates the ultimate precision cutting table. The modular design of the Proteus enables growing businesses to re-configure and expand their bench as needed – quickly and economically – to work in concert with new demands. No extra tools are necessary, assembly is ultra-simple, and the applications are endless.

Any bench or table unit can be fitted with a customer-supplied top of choice. Recommended to use ¾” thick MDF or finished plywood.

Javelin Integra cutter
Installed on an Proteus
Bench with Customer
supplied worktop.
