

SEAL® 65 Pro MD Laminator

64600

Product Description

The SEAL 65 Pro MD is a high production, versatile laminator that can run both hot and cold applications. Its unmatched capability of running at speeds more than 15 feet per minute provide efficiency without sacrificing quality. Utilizing cutting edge technology, the 65 Pro MD is capable of running thermal film at two to three times the speed of other laminators on the market - definitely a time saving asset to your business. Plus, it carries ETL certification in the US/Canada.

Features

- Dual IR Quartz heated rollers capable of running both hot and cold films
- 65" working width to handle a wide range of media
- Maximum operating speed of 15'/minute
- 2" nip with precision pneumatic rollers for even speed and pressure to ensure smooth, wrinkle-free graphics
- Bi-directional operation allows for efficient operating
- Easy Operator Interface (EOI) controls temperature, speed, cooling and nip height with a touch screen
- 4 auto-grip swing up supply shafts that are cantilevered and swing out and away from the laminator so that films and adhesives can be loaded quickly and easily without any obstructions
- Flip up in feed table for easy webbing
- Foot switch for hands free operation
- Self checking safety eyes for increased operator safety
- Removable front/rear image roll trough for easy feeding of images
- Optional Slitter Assembly that includes 2 cutters/slitters

Specifications

- **Heated Rollers** Dual

Other information

- **Dimensions** 91" x 62" x 55" (2311 x 1575 x 1397mm)
