

Value unit – general purpose strapping

The **SM-101 Semi-Automatic Strapping Machine** is a general purpose strapping machine that can strap packages quickly and efficiently. Strapping cycle will automatically start when operator inserts strapping. The machine will automatically shut down after a preset time to save electricity. We recommend this machine for strapping cartons in a light industry setting.

Standard Features:

- Fast Warm Up Time (approx. five minutes)
- Enclosed Frame to Keep Dust and Dirt Out
- Control Panel to Adjust Reset and Manual Feed Buttons
- Tension Range Adjustment: 2-100lbs
