Direct Heat foot-operated SEALERS

TEW THS-Series Direct Heat Sealers seal many different types of thermoplastic materials including: coated aluminum foil, Kraft paper, cellophane, polypropylene, poly-nylon, and other thicker materials. Please note: direct heat sealers cannot seal polyethylene.

Depending on the model of the sealer, material up to 16" wide and 20mil total thickness can be sealed. Units are equipped with a thermostat that accurately controls the temperature from 30°F to 550°F (0°C-300°C). Both jaws are heated simultaneously so there is better heat penetration to seal thicker materials. Our THS direct heat sealers include an adjustable worktable. The pedestal stand is 26", but an optional 36" stand is also available.

Easy to operate: Set the temperature on the thermostat. Once the correct setting has been reached, consistent seals will be maintained automatically. Insert the material between the two sealing bars. Press down on the footboard and release.

| MODEL # | SEAL LENGTH | DESCRIPTION | WATTS | WEIGHT |
|-----------|-------------|-------------------------|-------|--------|
| THS-200 | 8" | MESHED JAW | 250W | 38/9 |
| THS-200TC | 8" | MESHED, PTFE COATED JAW | 250W | 38/9 |
| THS-300 | 12" | MESHED JAW | 350W | 43/9 |
| THS-300TC | 12" | MESHED, PTFE COATED JAW | 350W | 43/9 |
| THS-300S | 12" | SERRATED JAW | 350W | 43/9 |
| THS-400 | 16" | MESHED JAW | 420W | 48/9 |
| THS-400TC | 16" | MESHED, PTFE COATED JAW | 420W | 48/9 |

- MESHED JAWS (Standard): 15mm (horizontal & vertical lines)
- PTFE-COATED MESHED JAWS: 15mm (horizontal & vertical lines)
- SERRATED JAWS: 15mm (horizontal lines)
- 10mm jaw is also available for replacement

**Sealer ships in 2 packages*
