

## Silicone Release Film

### Product Description

Silicone Release Film is a 36 $\mu$  (1.4 mil) clear polyester release film with one side siliconised.

### Applications

This product is used to cover exposed adhesive and is useful for when trying to apply an oversize film to a substrate on a roller laminator or vacuum press. The release film acts like a carrier, and stops the adhesive from sticking to the laminator rollers or vacuum press.

### Product Structure

Film:	Not Applicable
Adhesive:	Not Applicable
Release Liner:	1 side siliconised polyester

### General Properties

Film Thickness	Not Applicable
Adhesive Layer	Not Applicable
Ratio Film to Adhesive	Not Applicable
UV Protection Factor	Not Applicable
Outdoor Durability	Not Applicable
Heat Resistance Range	Not Applicable
Peel Strength (20 min, FTM1)	Not Applicable
