

RSS-1145

Great for laminating and encapsulating thermal film!

Royal Sovereign's RSS-1145 provides professional laminating for thermal films and mounting of printed graphics. Built for safety and ease of use, this heavy duty laminating machine with enhanced features and functions makes laminating faster and easier than ever!

Royal Sovereign Advantages

- **Easy to Use** Simple set-up with one button operation. Digital controls for speed, and temperature, foot pedal for hands-free operation
- **Fast Adjustments** Quick Notch system for gap adjustment allows you to change from fully open for webbing to closed for laminating or set to different mounting sizes in seconds
- **Fast Laminating** High quality Hot Shoe technology and durable motor provide for fast finishing
- **Idler Bars** Idler bars add tension and help to eliminate wrinkling while laminating
- **Reliable** All laminators have durable, sturdy frame construction and require little assembly and minimal maintenance

Royal Sovereign offers a high quality, economically priced thermal laminator specifically designed for users to easily and professionally finish wide format graphics. Built for safety and ease of use, the RSS-1145 is perfect for laminating and mounting graphics up to 45" wide using thermal laminating films. It has a durable, heavy duty construction and requires little assembly and minimal maintenance. Backed by 25 years of experience, a Royal Sovereign laminator is a smart option for today's high volume graphics shops.

User friendly controls simplify operation

Flip up work table allows for easy access to the feed roller

NOTE: Requires 220-240V power.
Dedicated power line recommended.
